

BEYOND OSHA COMPLIANCE WORKPLACE SAFETY CHECKLIST AND TOOLS ASSISTS AND IN FACT, EQUIPS AND EMPOWERS THE SAFETY EXPERT AND TEAM TO CONDUCT THE WALKTHROUGH FOR SAFETY SAKE, AND NOT LIMITED TO BASIC OSHA COMPLIANCE. THE TOTAL FOCUS IS OVER-ALL SAFETY FOR PEOPLE IN THE WORKPLACE.

BEYOND OSHA COMPLIANCE WORKPLACE SAFETY WALKTHROUGH CHECKLIST & TOOLS.

For use by the safety consultant.

Now you have an excellent resource to assist your efforts in conducting a safety walkthrough for the employer.

A well-balanced audit as this guide directs the expert consultant to accomplish takes a full look at safety yet with the flexibility to tailor the walkthrough for a particular department, plant, or workstation(s) – whatever the organizational or managerial objectives are for conducting a safety audit.

More than just another checklist – this guide helps you with the pre-audit and post-audit meeting where the team takes findings of the audit into consideration for improving safety by implementing administrative, engineering, operational, and policy controls and modifications.

Whether you want to be the primary lead in the process, or be the safety expert included in the audit team, you will have everything you need within the pages of

this resource. Your total focus will be on safety for people (including work ergonomics for the individual worker doing the work). Use this resource to identify and rate hazards and risks to safety.

Included in the guide:

- Comprehensive audit checklist
- Pre-walkthrough meeting tips
- Hazards common to working alone or in isolation
- Immediate action required (where danger is imminent)
- Early detection of musculoskeletal injuries
- Mapping the walkthrough
- Post-meeting follow-up tips
- Why injury prevention programs fail
- Placing value on the outcome

We know that *compliance alone to governing frameworks* does not ensure a workplace free of risks for injuries or illnesses; hence the value of a walkthrough safety audit at regular intervals.
